

AUSTRALASIAN POWER EQUIPMENT

APEQ is an Australian based electrical equipment supply company specialising in the supply of Electrical Cables and Power Equipment to the Australian and global markets. The majority of the products we offer are manufactured in China under original equipment manufacturer (O.E.M) agreements, which allows us to provide our customers with significant commercial advantages.

APEQ CABLES

APEQ CABLES has established a reputation for being a reliable, low cost supplier of high quality cables to mining and industrial projects all over the world by consistently exceeding our client's expectations in cost and delivery.

With our reputation growing we have completed major projects in Oceania, Asia & Africa and with an ever growing footprint we are continually tendering and winning contracts on projects in new markets for existing and new clients.

APEQ CABLES – PROJECT REFERENCE

APEQ has recently completed a number of cable supply jobs to high profile mining projects including:

- **Newcrest Mining – Lihir Upgrade Projects (Papua New Guinea)**

Contracts for the supply of LV power, control, instrumentation and fibre optic cables for multiple upgrade projects with a combined value of over USD \$400k for the 2016 calendar year.

- **G-Resources – Martabe Secondary Crusher Project (Indonesia)**

Contract for the supply of the complete cable package for the secondary crusher project at the Martabe gold mine in Indonesia. APEQ's scope included 11kV cable, all LV power, control and instrumentation cable with a value of over USD \$180K.

- **Metifex (Australia) – Sabodala Parallel Primary Crusher Project (Senegal)**

Contract for the supply of the complete cable package for Teranga Gold Corporation's parallel crusher upgrade project, this includes all LV power, control, instrumentation and fibre optic cables with a value of over USD \$250K.

- **BG Group / QGC – QCLNG Upstream Project (QLD Australia)**
Contract for the supply of low voltage power cables.
- **SNC Lavalin (Australia) – Grande Côte Project (Senegal)**
Contract for the supply of the plant wide cable package with an overall value in excess of USD\$2.5 million. APEQ's scope of supply included termite proof direct buried HV power cable, LV power cable, instrument cable, control cable, submersible and fire rated cables.
- **OceanaGold – Didipio Underground Development (Philippines)**
Contract for the supply of cables for the underground development project. APEQ's scope of supply includes low voltage and high voltage trailing cables, as well as LV power and control cable.
- **Cudeco – Rocklands Copper Project (Australia)**
Contract for the supply of large HV power cable.
- **UGL – Airport Link Tunnel (Australia)**
Contract for the supply of low smoke zero halogen low voltage cables.
- **Ergon Energy Projects Division (Australia)**
Contract for the supply of 33kV High Voltage Cable.
- **G-Resources – Martabe Gold-Silver Project (Indonesia)**
Contract for the supply of low voltage submersible cables for various TSF substation relocation projects.
- **Masan Resources – Nui Phao Mining Project (Vietnam)**
Contract for the supply of submersible cables for a tailings storage facility substation relocation project.
- **Pan Australia – Phu Kham Increased Recovery Project (Laos)**
Contract for the supply of all project electrical cables. APEQ's scope of supply included HV power cable, LV power cable, VSD cable, instrument cable, control cable and flexible cables.
- **Centamin – Sukari Gold Stage 4 Expansion Project (Egypt)**
Contract for the supply of the Sukari Gold Mine stage 4 expansion HV, LV & Instrument cables.
- **Pan Australia – Ban Houayxai Gold Project (Laos)**
Contract for the supply of the plant wide cable package with value in excess of USD\$1.5 million. APEQ's scope of supply included HV power cable, LV power cable, instrument cable, control cable, submersible cable and overhead transmission line.
- **OceanaGold – Didipio Gold Project (Philippines)**
Contract for the supply of the plant wide cable package with value of approximately USD\$1.5 million. APEQ's scope of supply included HV power cable, LV power cable, instrument cable, control cable, submersible cable, trailing cable, overhead transmission line and fibre optic cables.
- **CST Mining – Lady Annie Stage 3 Expansion Project (Australia)**
Contract for the supply of HV power cable.

ENQUIRY@APEQ.COM.AU

APEQ's reputation is built on supplying high quality cable and equipment while providing our clients with outstanding value and excellent lead times.

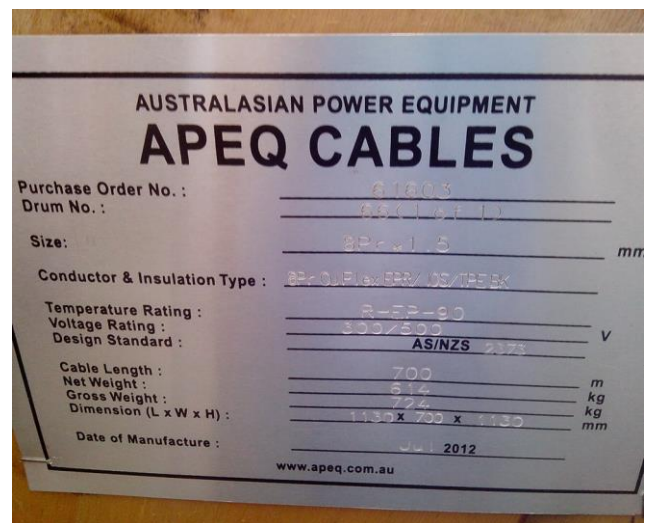

APEQ has forged long lasting relationships with our O.E.M partners with a track record that speaks for itself.

APEQ recognise the importance of quality and place an extremely high emphasis on achieving a high standard, our Beijing based quality team conduct regular factory inspections to monitor all stages of production and ensure complete compliance with all client expectations.

AUSTRALASIAN POWER EQUIPMENT

SUPPLY CAPABILITY ELECTRICAL CABLES

1 Cable Supply Capability

Australasian Power Equipment (APEQ) would be pleased to provide an offer for supply of cables for use in the Mining and Industrial sectors.

APEQ are able to supply industrial and mining cables of the highest quality.

We custom make to order and where possible do not place minimum ordering restrictions on our customers.

APEQ design, manufacture and test all cables to AS/NZ Standards.

In particular, we are able to offer the following:

- Trailing cables
- Medium voltage power cables
- Medium voltage fibre optic embedded cables
- Low voltage power cables
- Variable speed drive cables
- Overhead line conductors
- Optical Ground Wire cable
- Multi-core control cables
- Multi-pair instrumentation cables
- Flexible and submersible cables
- Termite proof cables (nylon jacket, termitex or double brass tape options)
- Fire rated cables
- Armoured cables.
- TÜV approved PV (Solar Cables)

Other specialised cables can be offered to suit specific client requirements.

2 Why APEQ – The APEQ Advantage Building On A Proven Record

APEQ offer our clients the opportunity to leverage outstanding value, while ensuring compliance with all project specifications and eliminating the commercial risks associated with dealing directly with Chinese suppliers.

APEQ have the right people on the ground with local knowledge of the Chinese market to ensure successful outcomes for our clients.

APEQ have recently worked closely with our clients to successfully complete large mining and industrial projects.

APEQ believe our understanding of the mining industry and our relatively smaller size allows us to focus more on our relationships with our clients – we work together as a team.
